UNCOMPROMISED PERFORMANCE!
Kilns beyond professional expectations.

ABIG 135 TH

DATA SHEET

Engineered for artists who ask for more safety, quality and reliability. The ABIG 135 TH is a professional kiln that meets all criterias.

Tradition Meets State-of-the-Art Technology

ABIG has acquired the kiln division of UHLIG/EFCO. Uhlig kilns have been in production since the 1950s, and even older models remain in use today thanks to a continuous supply of replacement parts.

Versatile

As a top-performance kiln, the ABIG 135 TH is highly versatile. With a temperature range of 400 to 1100 °C, it is perfectly suited not only for firing metal clay but also for many other purposes, such as firing glass, enamel, and ceramics.

Efficient Customer Service

Metalclay-shop.com and ABIG are both companies that focus on the customer and quality. If you have any questions about the kiln, our customer service is available to assist you promptly.

Key features

- **Even heat distribution**
- High firing range **400 - 1100 °C**
- **Stable performance**
- Compact & Lightweight: **11 kg**

Technical specifications

Model	135 TH
Kiln chamber	1,95 l
Max. temp.	max. 1.100 °C
Dimensions, outer	365 x 245 x 270 mm (H x L x D)
Dimensions, inner	90 x 140 x 155 mm (H x L x D)
Weight	11 kg
Thermoelement	160mm NiCr-Ni with Diodconnection
Options	With exhaust air pipe (135 TH-A) With Expert Programming Option (EPO)

Advanced controller for EPO offering up to 15 programs

MADE IN GERMANY
